I am happy to have the opportunity to convey good wishes and to extend congratulations to the students and faculty of the O. L. Price School for making this school more outstanding each year.

You are now developing habits, personal qualities, and characteristics, as well as knowledge, that will tend to persist in later life. It is hoped that the work habits, lessons learned, and achievements accomplished will bring you added happiness and success.

Sincerely,

T. H. Johnson
Superintendent of Schools

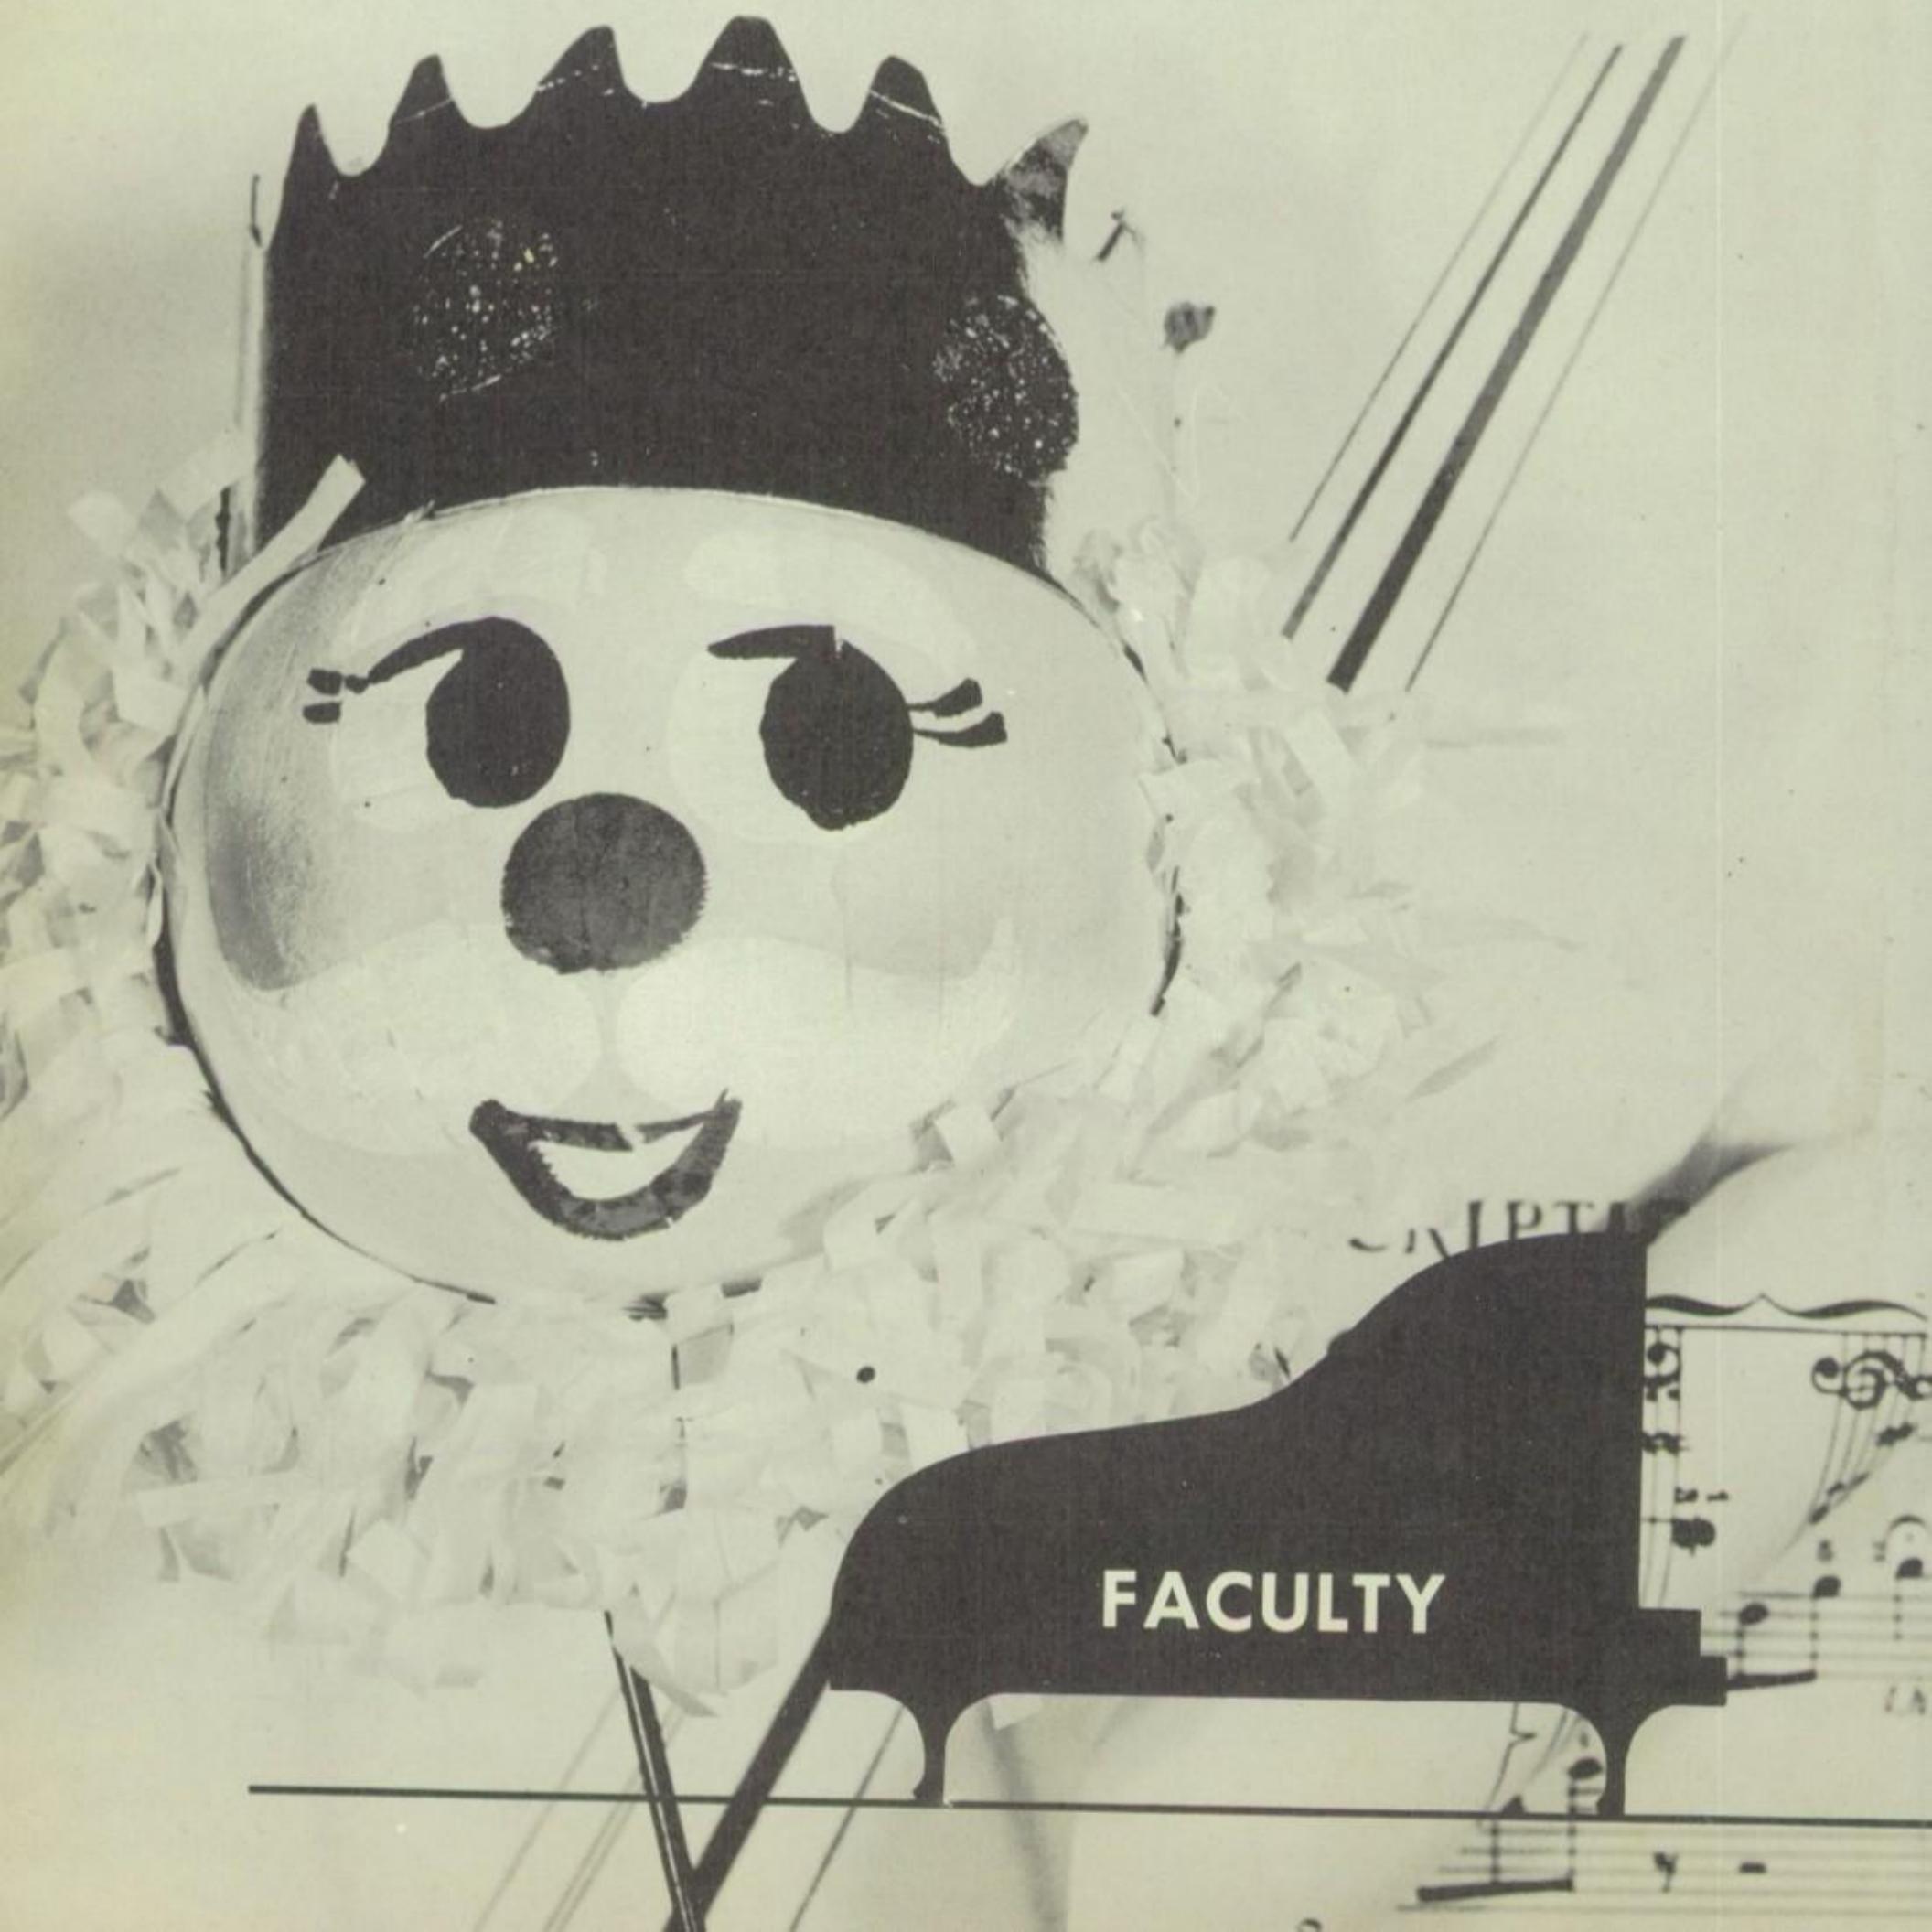

PRINCIPAL'S MESSAGE

THE GOALS in educating gifted children are essentially the same as for average students-to develop skills for daily living and to produce competent citizens. The gifted need to develop their special talents just as all youngsters need to develop whatever abilities they have. Only as we understand the reality of individual differences and how they should influence educational offerings, are we able to infuse life into the dream of education for all.

Respectfully
V. A. Anthony

"Dear Old Price High"

Dear old Price High
We love you
Always and ever we will be true
To our colors; Purple and bright Gold
Pride in our Dear School
Will ne'er grow old.

Dear old Price High
To you we say
You've made our lives
Bright in every way
That's why we must
Sing this song you see
We will love you now and
'Till Eternity.
